ISRAEL'S BIGGEST FINTECH CONFERENCE IS BACK

WE NEED FINTECH NOW, MORE THAN EVER

COVID has changed everything, from the way we live and work, to the way we shop, bank and use financial services.

In this new reality, banks and financial institutions will have to accelerate the development of their digital services while continuing to protect their valuable customer data, improve their ease-of-use, transparency and seamless service. Competition from neobanks and alternative solutions in the new reality of "remote everything" will add to the existing challenges.

Fintechs are needed now more than ever - and indeed some have seen tremendous growth during 2020. This year will be the turning point for financial services, a year full of growth opportunities!

Through our events we will continue to offer the most relevant content and best networking opportunities. I invite you to join our annual event so that you too can enjoy these opportunities!
